Yorkville MLP Core Income Strategy Ranked #4 of 1,731 Domestic Equity Strategies

NEW YORK, (May 26, 2015) – The Yorkville MLP Core Income Strategy was ranked the fourth best performing equity strategy in the United States by Pensions & Investments. Yorkville outperformed more than 99 percent of all U.S. Equity separately account managers (1,731) for the five-year period ended March 30, 2015. The Yorkville MLP Core Income Strategy produced **returns of 24.1% per annum over the five-year period.**

Yorkville attributes its investing success to its ability to identify master limited partnerships (MLPs) that produce higher quality and faster growing income. Yorkville invests in MLPs that have a low probability of cutting their distributions and clearly identifiable catalysts for future distribution growth. “Yorkville has always followed a philosophy of investing in MLPs for total returns,” asserts Darren Schuringa, CFA, Chief Investment Officer at Yorkville Capital Management. “Our superior long-term performance relative to other U.S. managers validates Yorkville’s growth focused approach to MLP investing.”
