- 1 Gross-of-fee returns do not reflect the deduction of management fees and certain transaction costs which will reduce performance.
- 2 Yorkville MLP Growth Opportunities Strategy Composite: Net-of-fee returns are calculated by deducting a management fee of 1.50% from the monthly gross composite return and a performance fee according to the following schedule: 10% performance fee above a 10% hurdle with a high water mark. The management fee was increased from 1.0% to 1.5% retroactively from July 2015 and a high water mark added on January 1, 2017.
- 3 Alerian MLP Index is the leading gauge of energy Master Limited Partnerships (MLPs). The float-adjusted, capitalization-weighted index, whose constituents represent approximately 85% of total float-adjusted market capitalization, is disseminated real-time on a price-return basis (AMZ) and on a total-return basis (AMZX).
- 4 The S&P 500® Index is a broad-based measurement of changes in stock market conditions based on the average performance of 500 widely held common stocks.
- 5 Standard Deviation measures the risk or volatility of an investment's return over a particular time period; the greater the number, the greater the risk.
- 6 EBITDA Growth: Median forecasted year-over-year EBITDA growth for holdings as of September 30, 2018. Excludes positions for which no Bloomberg estimate is available. EBITDA is defined as Earnings Before Interest, Taxes, Depreciation and Amortization.
